

EA: MA-Crossover-MT4

Platform: MT4 | Strategy: Trend (MA Cross)

Source file: MA-Crossover-MT4.mq4

File size: 68,084 bytes

DESCRIPTION

MA Crossover EA from the advanced MT4 collection. Clean MA crossover with configurable timeframes.

STRATEGY TYPE

Trend (MA Cross)

INSTALLATION GUIDE

1. Copy the .mq4/.mq5 file to MetaTrader folder:
 - MT4: ...\\MQL4\\Experts\\MA-Crossover-MT4.mq4
 - MT5: ...\\MQL5\\Experts\\MA-Crossover-MT4.mq4
2. Open MetaTrader → MetaEditor (F4)
3. Open the file in MetaEditor
4. Press Compile (F7) to generate .ex4/.ex5
5. Drag the EA onto a chart
6. Configure Inputs if needed
7. Enable AutoTrading (Algo Trading button)

IMPORTANT: Enable 'Allow DLL Imports' if the EA uses external libraries.

Always test on a demo account before live trading.

SOURCE CODE

The full open-source MQL4 code is available in the accompanying file MA-Crossover-MT4.mq4. Open it in MetaEditor or any text editor (VS Code, Notepad++) to study and customize the trading logic.

RISK DISCLAIMER

Forex trading carries significant risk. This EA is provided AS-IS for educational purposes. Always test on a demo account first. Past performance does not guarantee future results. The authors are not responsible for any trading losses.
