

EA: OpenEA

Platform: MT5 | Strategy: AI / Trend

Source file: OpenEA.mq5

File size: 26,479 bytes

DESCRIPTION

OpenEA with FxChartAI integration for MT5. AI-powered trend analysis with dynamic position management.

STRATEGY TYPE

AI / Trend

INSTALLATION GUIDE

1. Copy the .mq4/.mq5 file to MetaTrader folder:

- MT4: ...\\MQL4\\Experts\\OpenEA.mq5
- MT5: ...\\MQL5\\Experts\\OpenEA.mq5

2. Open MetaTrader → MetaEditor (F4)

3. Open the file in MetaEditor

4. Press Compile (F7) to generate .ex4/.ex5

5. Drag the EA onto a chart

6. Configure Inputs if needed

7. Enable AutoTrading (Algo Trading button)

IMPORTANT: Enable 'Allow DLL Imports' if the EA uses external libraries.

Always test on a demo account before live trading.

SOURCE CODE

The full open-source MQL5 code is available in the accompanying file OpenEA.mq5. Open it in MetaEditor or any text editor (VS Code, Notepad++) to study and customize the trading logic.

RISK DISCLAIMER

Forex trading carries significant risk. This EA is provided AS-IS for educational purposes. Always test on a demo account first. Past performance does not guarantee future results. The authors are not responsible for any trading losses.
